NFT Las Vegas™ Starter Pack

Welcome to the Ecosystem.

NFT Las Vegas exists to transform big ideas into scalable realities. Whether you're a founder, innovator, student, or creative entrepreneur, our 6-step processing pathway is designed to guide your project from concept to full execution — with strategy, infrastructure, and momentum built into every phase.

Step 1: Onboarding

Establish the Foundation.

This phase is all about alignment. We gather the details of your vision, assess your current assets and limitations, and generate a clear roadmap for how we'll build forward.

Core Activities:

- Project Intake + Vision Mapping
- Needs Assessment + Timeline Drafting
- Ecosystem Resource Walkthrough
- Toolkit 1.0 Access: Onboarding + Funding Enablement

Step 2: Funding Enablement

Structure Your Path to Capital.

We help you align your business model with realistic funding sources — whether that's through personal capital, community fundraising, investors, grants, or strategic partners. Everything is grounded in real costs and real deliverables.

Core Activities:

- Budget Modeling + Cost Breakdown
- Pitch Decks, Grant Templates, GoFundMe Structuring
- Revenue Planning + Monetization Logic
- Toolkit 1.0 Continuation

Step 3: Tech Development

Build Core Infrastructure.

We define your technical needs and help you build the exact infrastructure required — websites, apps, AI tools, CRMs, or dashboards. All development is scoped intentionally to match your goals, timeline, and budget.

Core Activities:

- Platform Architecture Planning
- UI/UX Flow Mapping + Feature Prioritization
- Web/App/CRM Development Execution
- Toolkit 2.0 Access: Tech Development + Product Manufacturing

---

Step 4: Product Manufacturing

Go From Concept to Creation.

For physical products, we coordinate your entire manufacturing journey — from sourcing and pricing to logistics and sample review. You get clear direction, global supplier access, and insurance options built into every shipment.

Core Activities:

- Product Sourcing + MOQ Planning
- Sample Order Management + Cost Analysis
- DDP Shipping, Insurance, and Inventory Logistics
- Project management
- Toolkit 2.0 Continuation

Step 5: Launch Strategy

Activate Awareness + Demand.

We design your launch with intentionality — building campaigns, moments, and rollouts that turn heads and convert. Whether you're launching digitally, in-person, or both, we build hype, capture attention, and track performance.

Core Activities:

- Go-To-Market Planning + Rollout Schedule
- Influencer Seeding, Giveaways, and Campaign Strategy
- Analytics Setup + Conversion Goal Tracking
- Toolkit 3.0 Access: Launch + Distribution

Step 6: Distribution

Get It Into Their Hands.

Once you're live, we ensure your product or service reaches your audience — through e-commerce platforms, shipping infrastructure, customer support systems, and distribution agreements. Our goal is sustainable scale and momentum.

Core Activities:

- E-Commerce Integration + Fulfillment Support
- Shipping Insurance, Inventory Sustainability, Returns Management
- Creator + Affiliate Sales Channel Expansion
- Toolkit 3.0 Continuation

NFT Las Vegas Toolkits

Each step in our pathway includes access to custom Toolkits that equip you with forms, checklists, schedules, and build frameworks:

- **Toolkit 1.0** – Onboarding + Funding Enablement
- **Toolkit 2.0** – Tech Development + Product Manufacturing
- **Toolkit 3.0** – Launch + Distribution

These are your operational blueprints — designed to reduce friction and increase execution speed.

Final Outcome: A Self-Running Brand

By the time you complete the NFT Las Vegas™ Onboarding Suite, you will have:

✔ A fully activated brand identity

✔ AI-powered communication and CRM automation

✔ Investor-ready documents and funding structure

✔ Tech stack + product pipeline aligned

✔ Launch calendar and ad plan locked

✔ Long-term fulfillment and revenue systems

Your project becomes a living organism — fueled by automation, guided by clarity, and built to scale
